Cockenzie & Port Seton Amateur Radio Club is affiliated to the Radio Society of Great Britain and holds the call signs MM0CPS and GM2T which are used for our special event and contest entries.

The Club was formed by Bob Glasgow BEM GM4UYZ in 1984, to help the local amateurs get to know each other.

Far from being just a local club we have members regularly attending from the Borders, Dumfries, Strathclyde, Fife and Newcastle.

We have supported the British Heart Foundation for many years and to date we have raised £20,036 for them.

The Club usually meets on the first Friday of every month in the Thorntree Inn on the old Cockenzie High Street from 7pm till late.

Club email

cpsarc@gmail.com

## Editorial

The autumn months are now here, temperatures are dropping as are the leaves.

We have a number of events this month, Construction Night on 7 October, Activity week from 11-17, Galashiels Rally on 26 October and CQWW SSB contest over the weekend of 25/26 October. I hope you can attend one or more of these events.

Clun Night is on 3 October in the Thorntree Inn, we hope to see as many of you as possible for a drink and a chat.

Bob GM4UZY has booked the Cuddie Brae for our Christmas meal on 12 December, let him know if you want to go and pay your deposit.

The menu will be circulated later for you to choose your meal in advance and pay the final amount.

You will see inside the newsletter a letter from the British Heart Foundation thanking us for the donation of £1486.50 which continues our long standing support of the BHF, thanks to everyone who bought stuff at the rally or contributed during the year.

Finally, congratulations to Jim MM0DXH and Sarah 2M0PCW who were married on 21 September

# Activity Week reports

## Colwyn MM0YCJ

My September CPSARC Activity Week was an absolute beezer. I was on holiday rock climbing in a place called

Squamish near Vancouver, Beautiful British Columbia in Canada. A late summer climbing trip and I had taken along a couple of radios to try to include some Canadian SOTA activations.

On Saturday 6th September we had just arrived in Vancouver and had stayed close to the airport in the city. After a very early breakfast, helped by the jet lag, we drove to a nearby SOTA summit; VE7/GV-009, Burnaby Mountain in the Greater Vancouver area (370m, Latitude: 49.2792, Longitude: -122.9086, QTH Locator: CN89ng).

It is a drive-on summit atop a university campus (Simon Fraser University) and there is a play-park next to a concrete water tower where I was able to set up an end fed half-wave trapped wire for 20/40 metres strung between some trees in the park.

First I tried 2 metres and was rewarded with an FM mobile QSO with a motorist nearby (VE7JBX/M). Being in British Columbia I had the prefix VE7, hence my callsign was the lengthy VE7/M0YCJ/P. I was using my FT-4X with the Yaesu commercial antenna and the US calling channel is 146.520MHz, which I found also works for Canada.

This immediate early success was not sustained and I shortly moved to use my FT817 (5 watts) and the EFHW antenna. On 20 metres WA7JTM came back to my CQ call down in Phoenix, Arizona; 1976Km away and the furthest QSO of the day. There were no other takers on 20 metres although I could hear many station and I assume it was just that they couldn't hear me!

I moved back to the FT-4X on VHF and spoke with VE7MXL some 22Kms away, then with N1ELS who was also a SOTA station on W7W/NO-035 (Elk Mountain) in Washington State, USA across the border 164Km away. I then discovered he was with three other SOTA people; KK7ULL, KK7UKE and KC7EPG, so seven QSOs in total with 4

Summit-2-summit contacts. This took about an hour in total and as we had to go shopping to buy some climbing boots for the holiday, so 7 QSOs would have to suffice. My first Greater Vancouver activation, a success with a short walk back to the hire car.

Sunday 7th September we explored Vancouver but on Monday 8th we headed up to Grouse Mountain, a small ski resort area just north of the city. A ski lift takes you from around 300 metres up to over 1000 metres and various summer attractions.

From there we walked past a small electrified enclosure with two tame grizzly bears (photo 1) and headed for Goat Mountain a few kilometres away on a well marked, but

consistently rough track.

photo 1 Grizzly bears

The summit of Goat Mountain (SOTA reference VE7/GV-010, 1401m, Latitude: 49.4036, Longitude: -123.0789, QTH Locator: CN89lj) had a few small trees to rig up the FT817 (5 watts) and the lengthy EFHW antenna.

First I gave a shout on 14MHz and got 3 QSOs, W7BCM, KV7DX, KF7JQV being at an altitude of 400 metres and at a weekend helped. The fourth was a VHF British Columbia operator (146.520MHz) callsign VE7URL.

Switching back to 14MHz I got a 8236Km transatlantic contact with Chris (F4WBN) in southern France, not a bad QSO working QRP; 4.7 watts as measured by John on a CPSARC radio test night! There were three summit to summit contacts; A US SOTA operator (AC1Z/VE7) on Partridge Hills on the south of Vancouver Island (VE7/CL-020, Latitude: 48.5553, Longitude: -123.485, QTH Locator: CN88gn) this was a VHF contact 98Km away.

A short discussion ensued about whether the British Columbia identifier (VE7) should be added as a prefix or a suffix?

Subsequently I have found that for CEPT operators – such as those from the UK – we should use VE7 as a prefix, but for USA radio hams their bi-lateral agreement requires the use of a suffix.

Then there were three 14MHz contacts, callsigns KX0R, 1789Km away on W0C/SP-074 (Burntop, 3379m, Latitude: 39.19, Longitude: -105.5832, QTH ocator: DM79fe), K6YK in California (1283Km) and K6EL on another summit 1280Km away on W6/NC-298 (Vollmer Peak, Northern Coastal Ranges, California, Latitude: 37.8834, Longitude: -122.2218, QTH Locator: CM87vv).

A total of 9 QSOs from a super summit (Photo 2).

Goat Summit

Next day on Tuesday 9th September we drove up to a second ski resort serving Vancouver; Cypress resort. The

SOTA summit is called Black Mountain (VE7/GV-013, 1224m, Latitude: 49.3944, Longitude: -123.2186, QTH Locator: CN89jj) and has a well marked and busy footpath through dense forest and up to the rocky summit.

A quick shout on VHF (146.520MHz) got contact with a special station VE7MIR (Vancouver mid-island radio club) on Nanoose Hill (VE7/NO-020, 254m, Latitude: 49.275, Longitude: -124.1588, QTH Locator: CN79wg). It was a radio club outing and I was able to log QSOs with four other club members; VA7TLS, VE7JFZ, VA7KGW and VA7AJN. With the FT817 I then got a couple of 14MHz QSOs with WB6POT (1161Km, San Jose, locator CM99mb) and K6YK in California 1283Km). Only 7 QSOs but another super summit.

Next day on Wednesday 10th we returned to Cypress resort and hiked up to the summit of Hollyburn Mountain

(VE7/GV-011, 1326m, Latitude: 49.4006, Longitude: -123.1831, QTH Locator: CN89jj). We flogged up a bare ski run for most of the height followed by a rough track to another rocky summit with plenty of space for a the EFHW trapped for 20m/40m (Photo 3). Again VHF produced three QSOs; VE7MLZ, VE7PMD and mobile station, VE7EFK/M.

Switching to 14MHz I was rewarded with three QSOs, two in France; F5PYI and Chris again F4WBN. There was also WB6POT in San Jose.

So an enjoyable activity week while away on a climbing holiday in Canada (Photo climbing). The hills are generally tough to climb and the number of radio operators was not large, but success came with a bit of patience and good operating practice.

### Bob GM4UYZ

Activity week I was on every day and made a total of 105 QSO's. See the breakdown tables below.

20M was 44%, 40M was 35%, 7% was 10Mhz, 7% was 15Mhz and 1% on 28MHz where I made the QSOs.

This month decided to do just DATA. I also gave GM2T/P some points and multipliers in the RSGB SSB Field Day, Data modes all hard work with the bands I think in a terrible state (I must admit they were at the times I operated). Maybe next month it will be better.

Best QSO on FT4 = RA3RDN @ 2833Kms

Best QSO on FT8 = ZS3JDL @ 9760Kms

## Thank you for your donation

Dear Mr Glasgow

On behalf of British Heart Foundation (BHF), I write to thank you for your recent generous donation of £1,486.50. Your generosity is helping to change and save the lives of people affected by heart and circulatory diseases.

Donations like yours enable breakthroughs, from pioneering surgeries and life-changing treatments to genetic testing for deadly diseases. For more than six decades, BHF supporters have helped give hope to millions across the UK and beyond. Countless families still hold their loved ones thanks to research funded by people like you.

Despite these great strides, heart and circulatory diseases remain the world's biggest killers, causing one in four deaths in the UK each year. To prevent heart attacks, reduce the risk of strokes, and cure heart failure, we need research more than ever.

Your support can help us build a brighter future for everyone affected by heart and circulatory diseases. From all of us at the BHF, thank you.

Best wishes,

**Sylvia Kusi-Appouh**  
High Value Fundraising Coordinator  
kusiappouhs@bhf.org.uk

Royal Patron: His Majesty, King Charles III | CEO: Dr Charmaine Griffiths

British Heart Foundation is a registered charity in England and Wales (225971), Scotland (SC039426) and the Isle of Man (1295). A company limited by guarantee. # DF Hunt Report

Friday 12th September 2025

This year again we had our normal two DF Nights in the events calendar, this being our second one. Weather wise it was an excellent evening although a good shower before we started. The days leading up to the Friday were very promising weather wise which made it a good omen. The difference between our first DF night in May and this one was this time it was done in the half daylight and half-darkness, that certainly added to the fun of trying to find that elusive fox. The fox for this event was **"the invisible fox"**, otherwise we had no idea, and it was mentioned it was Cambell MM0DXC but that turned out not to be true., like all other previous DF nights, the fox was given notification or as it was this year we couldn't as we didn't know who it was to say how many cars were taking part.

Well the two teams that took part this time assembling what was where the old Pond Hall stood. The teams consisted of Bob GM4UYZ, James 2M0JRI and Cephas MM0INS in car 1 and lastly Liz 2M1GLD and Rickie GM1PLY in car 2. All the teams for this DF Hunt used a 2-element beam. It was not a good turnout a pity a few more had not turned up as over the years a lot of people have really enjoyed taking part but alas you all are now missing.....

At the pre-requisite time of the 19:00 start we went our separate ways to try and catch the elusive fox. As a start-

ing point we headed up to the top of the coal road to take our first DF but to no avail, we then headed off towards the Carlton Tower Haddington still nothing heard so we headed to Haddington, still nothing and then back up towards Tranent, still nothing. Our suspicions were raised that was no "fox".... This was proved the case. We contacted Liz and Rickie, and they thought the same so we both "pulled the plug" as they say.

Certainly a bit of a mix up this year and not much publicity of the event but we had a good run around East Lothian, and we had a good blether as well. Good training for James as he hasn't ever taken part in a DF Night, so he now knows how it all works. Ah well let us hope our next one, May 2026 does better.

Those of you who do not take part you do not know what you are missing. Believe you me DF'ing is not as easy as you think, try it and you will see what I mean.

Bob GM4UYZ

# Clublog Tables

The 2025 table has now started, please carry on uploading your logs so we can see how you are all doing.

At the time of writing, Brian M0RNR in the lead with 170, followed by Martyn MM0XXW on 169

It's also great to see GM4UYZ making an appearance in the table after spending half the year in hospital.

There's plenty time to join in over the year so if you'd like to see your results in the table please submit your logs

Club members can join in at any time, simply sign up at [clublog.org](http://clublog.org), submit your log and apply to join the CPSARC club there, once you're approved your entry will appear in the list (club members only, random applicants will be refused)

John MM0JXI

## Congratulations!

Congratulations to Jim MM0DXH and Sarah 20PCW who were married on 21 September.

# CHRISTMAS NIGHT OUT

SATURDAY 13th DECEMBER @ 19:00

I know it is a few months away yet, but I am just starting to look at our Christmas Night Out on Saturday 13th December. Believe you me to get where you want takes it to be booked early. This year I have decided to return to the Cuddie Brae at Newcraighall for two reasons

Everyone Who went in 2024 raved about it and said how accommodating the restaurant was, etc.

I missed it due to unfortunate circumstances i.e. being seriously ill

I hope you are all acceptable with my decision.

I have booked our Christmas Night Out at the Cuddie Brae, Newcraighall (next to the Premier Inn) for Saturday 13th December @ 19:00. The choice is only the Christmas Fayre Set Menu Meal at the cost of £28.99 per Person. I have booked for 25 people as this is average to the number that goes. To that end I have had to pay a £10 deposit per person which is £250. Hope you all go as the deposit is non-refundable, and I don't want to be out of pocket!!!!

The Cuddy Brae is on the Fort Kinnaird bus routes plus on the Galashiels railway line has a stop at Newcraighall just across from the venue. Advantage of the Cuddie Brea is we won't have to wait long on drinks orders an issue we can find at the Ravelston. I think it as well, nice to try other places, hope you all agree.

So Total cost is £30 (rounded up from £28.99)

Now the criteria.... Meal booked under my name...

Venue: CUDDIE BRAE  
Address: 91 Newcraighall Rd, Musselburgh EH21 8RX  
Telephone No: 0131 657 1212

Date of Meal: Saturday 13th December 2025  
Time: 19:00  
Location: Restaurant

Meal Type: Christmas Fayre Menu  
£30 Meal

Note: Like last year I will collect the Christmas Night out Meal money. Regard drinks this is up to you in the sense you pay your own drinks. I believe this worked exceptionally well last year.

MY CRITERIA...

PLEASE RESPOND AS IT IS VERY DOWN HEARTENING WHEN PEOPLE DON'T. IT MAKES IT A LOT HARDER FOR THE PERSON WHO IS TRYING TO ORGANISE AN EVENT

Are you going ----- YES or NO

(Can you respond to me at [bob.gm4uyz@talktalk.net](mailto:bob.gm4uyz@talktalk.net) whichever way you decide, ASAP)

If YES, then I need from you the following:

- How many are going 1 or 2 or how many?
- First Names

For EVERYONE GOING

- DEPOSIT of £10/HEAD or FULL PAYMENT as soon as possible to confirm going.

o **YOUR DEPOSIT HAS TO BE PAID TO ME BY THE 21/10/2025**

o Note: You can pay the rest up after the deposit by using the payment methods below, but I need to have the Full total by the 18th November

- The full amount £30 needs to be paid to me by the 18th November as I need to confirm the booking with the restaurant on the 18th November

Payment methods

- CASH
- CHEQUE made payable to Robert Glasgow  
Post to 7 Castle Terrace, Port Seton, Prestonpans, East Lothian EH32 0EE

PayPal

Go the club's Website

Click on the "Large" Donate button

O It will display a photo of me and underneath it will say Robert Glasgow @cpsarc bobglasgow, Port Seton, Prestonpans, East Lothian

Click on Send

Enter your amount

Add your to Callsign and XMAS Meal to the NOTE Field

Click on Continue

Bank Transfer

Send me an email and I will give you the account information

It is important that you let me know your decision as soon as you can plus help me get the money in as I just hate chasing people. Thanks in advance for all your help here.

## CHRISTMAS MENU

I have a copy of this so see below:

Now the restaurant is requesting that everyone makes their choice, and a list of what people want to be handed into the restaurant which I will give to them on the 25th November so your help again would be appreciated.

Pick a

- A Starter
- A Main Course
- A Dessert

Send your choices to me at bob.gm4uyz@talktalk.net

I will collate your replies and produce the paperwork to give to the restaurant.

MENU (Trimmed down to show the individual items only but will send out a full copy to you if you are going)

### STARTERS

- Chef's Homemade Spiced Vegetable Minestrone Soup (v)
- Crispy Chicken Goujons
- Baked Mini Camembert & Chutney (V)
- King Prawn Salad

### MAIN COURSES

- Hand Carved Roast Turkey
- Beyond Burger (ve)
- 8oz Rump Steak with Brandy Peppercorn Sauce
- Woodland Mushroom Bourguignon Wellington (v)
- Turkey & Ham Hock Sage Pie
- Brie & Cranberry Beyond Burger (v)

SIDES (extra price on top of £28.99 meal cost\_

Duck Fat, Rosemary & Garlic Roast Potatoes	- £1.99
Yorkshire Pudding (v)	- £0.99
Pigs in blankets	-£1.69
Baby Roast Potatoes (ve)	-£1.99

### DESSERTS

- Cherry & Chocolate Eton Mess (v)
- Christmas Pudding (v)
- Golden Biscuit Cheesecake (v)
- Tripple Chocolate Brownie (v)

(v) Vegan option available

That is everything so if you can help me with regard the DEPOSIT firstly and then payments up to the £30/head plus your choice of meal then that would be fantastic.

Bob GM4UYZ

# 2025 IOTA Contest results

The club took part in the RSGB IOTA contest as we have done since 1998 this year back again on the Island of Tiree – IOTA Reference EU008.

This article falls into a few sections:

- Log Checking
  - The log was checked for mistypes and general logging mistakes before it was finally submitted. It can be quite amazing the difference of doing these checks before submission on how much your actual score can change. Sometimes it goes in the negative i.e. we lose points but often it goes in the positive and we gain points, the bottom line it is well worth doing. The log entry is in my opinion one of the main important aspects of any contest. It is why you took part and that is to submit the best score you possibly can.... Strange as how many contesters dismiss the checking off their logs!
- We have ended up with more points after checking so we can now see how it all checked out and where we ended up in the contest. Personally, I am really pleased with the effort this year so well done to everyone who took part.
  - See below for the Adjudicated results that have now been announced....

## Contest Information and Contest Summary before checking.

3033 QSO's logged which include DUPES worked (Dupes are not counted)

## Club Attire

The club has a design for Club T-shirts, Polo-shirts, Sweat-Shirts, Fleeces and Jackets and all of these can be obtained from Patricia Bewsey Designs

When making an order please quote 'Cockenzie & Port Seton Amateur Radio Club' to ensure that the Club Logo will be placed on the required garments.

Cost will depend on garment and should cover the garment and logo, call sign addition will be extra.

If you wish to add your call sign to the logo then please ask at the time of the order.

Order from:

**PATRICIA BEWSEY DESIGNS,**

**Tel/Fax: 01620 850788**

**Mobile: 07970 920431**

**Email: [patricia.bewsey@gmail.com](mailto:patricia.bewsey@gmail.com)**

**Note: the shop at Fenton Barns is now closed**
